CodySoft March 12th 2020 release notes:

Collateral Management Module:

- 1. Ability to multi select plans while versioning
 - a. Users can now select multiple plans when creating versions, previously selection was one or all.

Plan Benefit Package Module:

- 1. Added Combine multi-part values into a single value as a comma separated list.
 - a. Instead of creating separate values, this option now puts them into a single list with commas

Condition			^
