CodySoft June 4ᵗʰ 2020 release notes:

Plan Benefit Package Module:

1. Ability to update Field Lookup Headers
   a. You can find and replace changed PBP Report Headers when CMS changes header names or moves benefits between screens in the HPMS software that is used to create the PBP Reports.
   b. For example CMS might change Section B:#3 Cardiac – BASE 3 to another header like Section B:#3 – Cardiac – BASE 1.

   c. Once you are finished with the replacement, a confirmation message displays.
